E18. BELLSOUTH OPERATOR SERVICES ACCESS SERVICE

(T)

E18.2 BellSouth Operator Transfer Service (Cont'd)

(T)

E18.2.2 Undertaking of the Company (Cont'd)

- G. When the IC has both interstate and intrastate *BellSouth Operator Transfer Service* traffic, the percentage intrastate usage determined for the IC's *BellSouth SWA FGC*, *BellSouth SWA FGD*, TSBSA 3 service as specified in Section E2. of this Tariff will be applied to the *BellSouth Operator Transfer Service* charges.

(T)

E18.2.3 Obligations of the IC

- A. The IC will establish an IC location, if none exist, and will order *BellSouth SWA FGC*, *BellSouth SWA FGD*, TSBSA 3 trunks, if none exist, to interconnect with the OSS location(s) serving all LATAs within the OSS serving area where the IC requests *BellSouth Operator Transfer Service*.
- B. IC facilities at the IC location shall provide the necessary on-hook, off-hook, answer and disconnect supervision.
- C. When ordering *BellSouth Operator Transfer Service*, the IC shall determine and specify the number of new or additional *BellSouth SWA FGC*, *BellSouth SWA FGD*, TSBSA 3 trunks desired, if any, to carry IC operator services end user requests from the *BellSouth Operator Services System* location to the IC location as specified in Section E5. of this Tariff.
- D. The IC must order capacity sufficient to handle customer operator services end user requests originating from all Company end offices within each LATA of the *BellSouth Operator Services System* serving area where *BellSouth Operator Transfer Service* is requested.
- E. Jurisdictional reporting will apply as specified for *BellSouth SWA FGC*, *BellSouth SWA FGD*, TSBSA 3 in Section E2. of this Tariff for determining the Percent Interstate Usage (PIU).

(T)

(T)

(T)

(T)

E18.2.4 Rate Regulations

- A. The Operator Transfer charge is applied on a per end user request transferred basis, as set forth in E18.2.5 following. A request shall be considered transferred when the Company operator activates the *BellSouth Operator Services System* switch which routes the call from the *BellSouth Operator Services System* location to the IC location.
- B. Switched access premium rates and charges, recurring and nonrecurring, as set forth in Section E6. of this Tariff will apply to all end user requests transferred from the *BellSouth Operator Services System* location to the IC location via the IC's *BellSouth SWA FGC*, *BellSouth SWA FGD*, TSBSA 3 trunks. In addition, Rate Regulations as specified in Section E6. will apply.

8. ANCILLARY SERVICES

8.3 Operator Services (Continued)

8.3.2 Service Provisioning (Continued)

- (B) Operator Services will be provided over FGC, FGD, BSA-C or BSA-D trunk groups, arranged for (C) either one-way or two-way calling, from the Operator Services Switching Location to one customer designated location in the same LATA. Both Operator Transfer and Inward Operator Assistance traffic may be combined on the same trunk group.
- (C) Switched Access used in conjunction with Operator Services will be provisioned in accordance with the technical specifications and requirements set forth in Section 6 of this tariff.
- (D) Designated Telephone Company Operator Services Switching Locations are identified in The National Exchange Carrier Association Tariff FCC No. 4. The designated locations will be in those LATAs in which the Telephone Company is able to provide Operator Services.

8.3.3 Rate Regulations

Rates and charges applicable to Operator Services are described below. In addition to the rates and charges applicable to Operator Services described in this Section, all nonrecurring charges associated with the ordering, installation or rearrangement of FGC, FGD, BSA-C and BSA-D services apply. (C)

Where the Telephone Company has measurement capability for Operator Services per call charges, the Telephone Company will bill the actual usage measured on a per call basis. For Operator Transfer Service usage, FGC, FGD, BSA-C and BSA-D access minutes will also be billed in addition to the per call charge. (C)

When measurement capability is not available, the customer shall furnish a forecast of the number of calls (call capacity) anticipated for each month of the succeeding year by type of call (i.e., Operator Transfer and Inward Operator Assistance calls) and by Operator Services Switching Location at the time the order is placed. For mixed intrastate and interstate services, the customer's estimate shall include the percent of interstate calls. At a minimum, the customer shall revise this forecast annually. More frequent revisions of the forecast may be submitted, however, no more than once per month.

Such estimates shall be used as a basis for billing the Operator Transfer Service per call charge until such time as the Telephone Company has actual measurement capability available. The customer shall maintain records supporting such estimates.

(A) Operator Transfer Service

Operator Transfer Rate - The Operator Transfer Rate is assessed per 0- call transferred to a customer. A 0- call is considered transferred when the Telephone Company operator activates the switch transferring the call to the designated customer. (C)

Switched Access Charges - FGC, FGD, BSA-C or BSA-D Switched Access usage charges and Carrier Common Line Charges will also apply per minute of use for Operator Transfer Service.

(B) Inward Operator Assistance Service

Inward Operator Assistance Service includes the functions of Busy Line Verification and Busy Line Interrupt. The Inward Operator Assistance rate applies on a per call basis. Each call may include any combination of functions for the same telephone number. A call is considered an Inward Operator Assistance call when the call is received at the Telephone Company's operator position.

Switched Access Charges

FGC, FGD, BSA-C or BSA-D Switched Access usage charges do not apply to Inward Operator Assistance Service. (C)

8.3.4 Rates and Charges

FACILITIES FOR INTRASTATE ACCESS

8. ANCILLARY SERVICES (Cont'd)

8.7 Operator Services (Cont'd)

8.7.3 Rate Regulations

Where the Telephone Company has measurement capability for Operator Services per call charges, the Telephone Company will bill the actual usage measured on a per call basis. For Operator Transfer Service, FGC and FGD access minutes will also be billed in addition to the per call charge.

When measurement capability is not available, the customer shall furnish a forecast of the number of calls (call capacity) anticipated for each month of the succeeding year by type of call (i.e., Operator Transfer and Inward Operator Assistance calls) and by Operator Services Switching Location at the time the order is placed. For mixed intrastate and interstate services, the customer's estimate shall include the percent of intrastate calls. At a minimum, the customer shall revise this forecast annually. More frequent revisions of the forecast may be submitted, however, no more than once per month.

Such estimates shall be used as a basis for billing the Operator Services per call charges until such time as the Telephone Company has actual measurement capability available. The customer shall maintain records supporting such estimates.

(A) Operator Transfer Service

Operator Transfer Service Rate

The Operator Transfer Service Rate is assessed per O- call transferred to a customer. A O- call is considered transferred when the Telephone Company operator activates the transfer function sending the call to the designated customer.

Switched Access Charges

FGC or FGD Switched Access usage charges and Carrier Common Line Charges will also apply per minute of use for Operator Transfer Service.

(B) Inward Operator Assistance Service

Inward Operator Assistance Service includes the functions of Busy Line Verification, Busy Line Interrupt and Operator Assistance. The Inward Operator Assistance rate applies on a per call basis. Each call may include any combination of functions for the same telephone number. A call is considered an Inward Operator Assistance call when the call is received at the Telephone Company's operator position.

Switched Access Charges

FGC or FGD Switched Access usage charges do not apply to Inward Operator Assistance Service.

MISCELLANEOUS SERVICES

8.7 Operator Services (Cont'd)8.7.3 Rate Regulations

Where the Telephone Company has measurement capability for Operator Services per call charges, the Telephone Company will bill the actual usage measured on a per call basis. For Operator Transfer Service, FGC, FGD, BSA-C or BSA-D access minutes will also be billed in addition to the per call charge. (C)

When measurement capability is not available, the customer shall furnish a forecast of the number of calls (call capacity) anticipated for each month of the succeeding year by type of call (i.e., Operator Transfer and Inward Operator Assistance calls) and by Operator Services Switching Location at the time the order is placed. For mixed intrastate and interstate services, the customer's estimate shall include the percent of intrastate calls. At a minimum, the customer shall revise this forecast annually. More frequent revisions of the forecast may be submitted, however, no more than once per month.

Such estimates shall be used as a basis for billing the Operator Services per call charges until such time as the Telephone Company has actual measurement capability available. The customer shall maintain records supporting such estimates.

(A) Operator Transfer ServiceOperator Transfer Service Rate

The Operator Transfer Service Rate is assessed per 0- call transferred to a customer. A 0- call is considered transferred when the Telephone Company operator activates the transfer function sending the call to the designated customer.

Switched Access Charges

FGC, FGD, BSA-C or BSA-D Switched Access usage charges, as set forth in Section 4 of this Tariff, and Carrier Common Line Charges, as set forth in Section 12 of this Tariff, will also apply per minute of use for Operator Transfer Service. (C)

(B) Inward Operator Assistance Service

Inward Operator Assistance Service includes the functions of Busy Line Verification, Busy Line Interrupt and Operator Assistance. The Inward Operator Assistance rate applies on a per call basis. Each call may include any combination of functions for the same telephone number. A call is considered an Inward Operator Assistance call when the call is received at the Telephone Company's operator position.

FACILITIES FOR STATE ACCESS

8. ANCILLARY SERVICES (Cont'd)8.7 Operator Services (Cont'd)8.7.3 Rate Regulations (Cont'd)(A) Operator Transfer ServiceOperator Transfer Service Rate

The Operator Transfer Service Rate is assessed per 0- call transferred to a customer. A 0- call is considered transferred when the Telephone Company operator activates the transfer function sending the call to the designated customer.

Switched Access Charges

FGC, FGD, BSA-C or BSA-D Switched Access usage charges and Carrier Common Line charges will also apply per minute of use for Operator Transfer Service. (C)

(B) Inward Operator Assistance Service

Inward Operator Assistance Service includes the functions of Busy Line Verification, Busy Line Interrupt and Operator Assistance. The Inward Operator Assistance rate applies on a per call basis. Each call may include any combination of functions for the same telephone number. A call is considered an Inward Operator Assistance call when the call is received at the Telephone Company's operator position.

Switched Access Charges

FGC, FGD, BSA-C or BSA-D Switched Access usage charges do not apply to Inward Operator Assistance Service. (C)

8.2 Operator Transfer Service (Continued)

(N)

8.2.3 Rate Regulations (Continued)

When measurement capability is not available, the customer shall furnish a forecast of the number of calls (call capacity) anticipated for each month of the succeeding year by type of call and by Operator Transfer Service Switching Location at the time the order is placed. For mixed intrastate and interstate services, the customer's estimate shall include the percent of intrastate calls. At a minimum, the customer shall revise this forecast annually. More frequent revisions of the forecast may be submitted, however, no more than once per month.

Such estimates shall be used as a basis for billing the Operator Transfer Service per call charges until such time as the Telephone Company has actual measurement capability available. The customer shall maintain records supporting such estimates.

Operator Transfer Service Rate

The Operator Transfer Service Rate is assessed per 0-call transferred to a customer. A 0-call is considered transferred when the Telephone Company operator activates the transfer function sending the call to the designated customer.

Switched Access Charges

FGC or FGD Switched Access usage charges and Carrier Common Line Charges will also apply per minute of use for Operator Transfer Service.
